FIENDS' WORK.

An Attempt, Partly Successful, Made to Wreck an Excursion Train-Three Men Killed. Passengers Brulsed-

PHYSBURG, PA., Aug. 15 .- A dastardly attempt was made last night to wreck an Atlantic excursion train on the Baltimore and Ohio, at a point twenty miles from this city, where the road runs along the Yonghiogany thirty the road runs along the Yonghiogany thirty feet above water. The attempt was partially selectersful, and resulted in the almost total emolition of the engine and death of two sugmeers and a tramp. Forunately, the passengers escaped with slight cuts and busies. The killed are: Yankee Suflivan of Pittaburg, Daniel Goodwin, engineer eastern division, who was riding in the cab, and an unknown man, supposed to be a tramp. Fireman King was painfully but not dangerously injured. Investigation showed that a deliberate and flendah attempt was made to wreek the train by placing ties securely on the track.

For several years I suffered from the worst type of malaria, confracted in service on the months ago to show that a live steamboat could river. I was also troubled with billous colic, derangement of the liver and physical prostration. I was prescribed for by several physicans, and used various advertised specifics, but with only temporary relief. I then tried Acid Iron Earth, and after using several bottles find Iron Earth, and after using several bottles find myself completely restored in health. I can not say too much for Acid Iron Earth. Respectfully say too much for Acid Iron Earth. Bespectfully yours,

Silver, Its Present Condition and Future Probabilities Causing Agitation.

Change of Sentiment in the Stock Market Becoming More Marked-Slight Cloud Regarding the Money Market-

New York, Aug. 15 .- With silver strong a \$1.140s, as it was before 11 o'clock this morningt it was only natural Wall street should be mor; than ever interested in the problem which the government is now trying to solve. The secretary to-day made another purchase of bullion as required by law. The course of the market to-

day seemed to bear out the statement of extremists that the secretary made a mistake in not buying a larger quantity of bullion at or even above \$1.13. Silver closed last night at \$1.15% and opened this morning at \$1.14%. Cables from London showed the silver market to be strong and active at \$25,4825%d, a full point in advance of the price telegraphed to the be strong and active at \$22,40524d, a full point in advance of the price telegraphed to the secretary of the treasurer at the time of his purchase of Wednesday. Silver brokers were engaged this morning in calculations to fix their offers. It is almost certain no offers will be made below \$1.15, and if the London market is not tampered with it may even be above that price. It was said Wednesday all of the government's purchases that day had been made from the West. It has been ascertained since, however, that \$10,000 of the \$310,000 was really spent in this city. The outbreak against the secret policy of the secretary as to the prices paid is having effect at Washington, and it is said to-day the policy may soon be changed. The strong impetus which the stock market received yesterday afternoon carried prices up still higher this morning. The change of sentiment is becoming more marked each day, despite the temporary depressions due to the bears' efforts. Fear regarding the momey market is the only cloud left. The general impression seems to be that as soon as anything happens to dispel all remaining doubts on this question things will be interesting down here.

London prices for Americans were much higher, and London had buying orders in our market. The bears who have not covered are beginning to grow uneasy, and many shorts were covered at the higher figures this morning.

and Union Pacific were prominent features of the market, and were all strong on London buying. The street was still full of rumors about the \$1,600,000 in bonds which holders and a well known finsucial 'usitiution contemplate selling to the treasury, as was first made public in these dispatches yesterday. The treasury officers say they have received an intimation of the mater. It is generally understood that the institution has bonds, and contemplates ... offer at prices slightly above the ruling figures. Whether they will offer remains to be seen.

Money loaned up to 15 per cent, in the last hour. This, and a wild board ramor of a strike on the Chica.co, Burlington and Quincy road, caused a failing off in prices. But closings were well above yesterday's.

Gidden, he claims to have recognized, came to his house and, calling him to the door, came to his house and, calling him to the door, fired a voiley at him of some tonor fifteen shots. The negro rents land from Gidden, and they had had trouble about had fences and Gidden's stock getting into the crop. Warrants were sworn out for Gidden and his brother-in-law, Nash, who were arrested and put under bonds. Johnson Keel, a Chickasaw Indian, was brought in for killing a Creek Indian on the 7th inst. No particulars, but as both were indians but of different tribes, a very nice legal question is involved as to the jurisdiction of a Federal court to try him. The defendant will claim that only Indian courts can take cognizance of the case.
